PLASTICS ENGINEERING COMPANY (PLENCO) NAMES LEN NUNNERY DIRECTOR OF MARKETING, SALES AND TECHNICAL SERVICE

Sheboygan, Wisconsin — June 22, 2020 — Plastics Engineering Company (Plenco), a leading North American manufacturer of phenolic resins and thermoset molding materials, announced today the appointment of Len Nunnery as Director of Marketing, Sales and Technical Service. In his role, Nunnery will be responsible for leading Plenco's commercial and technical service organizations while driving new growth initiatives. Nunnery brings a unique depth of knowledge and experience in the development, production and commercialization of customized thermosets, thermoplastics and elastomeric products. With past commercial leadership positions at Bulk Molding Compounds, Citadel Plastics and A. Schulman, Nunnery was most recently the Vice President of Sales and Marketing for Minnesota Rubber and Plastics.

"We are excited to announce the hire of Len Nunnery as Director of Marketing, Sales and Technical Service. Len brings Plenco a proven history of successful sales and marketing leadership in our industry along with a wealth of technical thermoset experience. We welcome Len to the Plenco team." Mike Brotz – President and CEO Plastics Engineering Company

In addition to his materials background, Nunnery has managed the commercial diligence and integration associated with seven competitive acquisitions and four exit processes. He is a Six Sigma Black Belt, holds a patent for a nitrogen-assisted injection molding technique and has published over twenty technical white papers. A three-time division Chair of The Society of Plastics Engineers (Thermoset Division), Nunnery helped raise over \$1MM to support Society activities. He is a graduate of Boston College.
